# Automotive Engine Shipper

## The solution

The new pack brings savings of £450,000 on packaging and transport costs, compared to the original design, whilst providing faster pack assembly and reduced storage space.

The pack is designed to ship 2 Car Engines from the UK to China and has been tested to a compression load of 6000Kg. The solution maximises a 40' shipping container, improving the capacity by 22%, the overall usage of containers has decreased by 18% saving approximately £350,000.

## Results we deliver:

More Sales

Lower Cost

Risk Managed
