Returnable Glass Pack

The solution

Automotive glass is heavy, fragile and is inevitably very difficult to distribute successfully through a global supply chain. This innovative returnable pack reduces damage to glass by 50%.

Operator safety is paramount when handling these heavy products. The solution is designed with a removable front panel for ergonomic loading and decanting, whilst ensuring operator safety. With an integral pallet designed to aid mechanical handling and plastic returnable handles, both pack integrity and safe manual handling throughout the supply chain is ensured.

Results we deliver:

More Sales

Lower Cost

Risk Managed
