Supply Cycle Thinking

Helping your product perform at its moment of truth

Innovation

Our award winning technical team create innovative bulk packaging designs for home and export applications that optimise the whole supply cycle and often replace traditional packing methods such as timber, plywood, plastics and steel.

Products

We manufacture heavy duty industrial board and converted products in double wall CA (Calibre) AA (Duaboard) and triple wall ACA (Powerply) materials.

For specialist applications, e.g. large format die cut wraps, we also offer high performance single wall A-Flute board.

Using predominantly kraft liners, semi chemical flutings and wet strength adhesives, our board grades are suitable for worldwide export applications.

Service excellence

We pride ourselves on the highest standards of customer service and have surveyed our customers for each of the last 15 years.

Through this analysis and resultant action plans, we can demonstrate year on year improvement. The results of our last customer survey show that 91% of customers would strongly recommend us to a friend or colleague.

Results we deliver:

More Sales

Lower Cost

Risk Managed

The UK's leading supplier of corrugated packaging

DS Smith operates in over 20 countries and employs around 22,000 people. Using the combined expertise of our four divisions - Packaging, Recycling, Paper and Plastics - we work with customers to address wide ranging topics, reduce complexity and deliver results throughout the Supply Cycle. For more information, visit www.dssmith.com.

DS Smith is the UK's leading supplier of corrugated packaging. Our comprehensive product range includes retail ready packaging, transit cases, consumer units, packs printed for gift and POS applications, and heavy duty packaging for industry. DS Smith's national network of manufacturing plants service thousands of customers, from multinationals to local businesses.

Using PackRight®, our unique way of working, our highly-skilled people work closely with customers to specify packaging that achieves real results. Typically, our customers achieve sales growth, or reductions in cost, waste and carbon at every stage of the Supply Cycle. For more information, visit www.dssmithpackaging.co.uk.
